

Household Appliances

Household Appliances

Inlet and Outlet Hoses, for replacement or extension use with washing machines, dishwashers and a range of replacement, repair and adaptor hose connectors, as well as standard installation appliance valves.

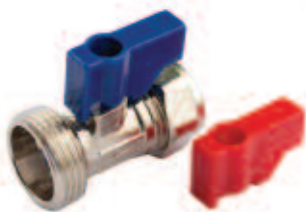

Our Self Cutting Inlet appliance tap ensures a fast water connection for washing machines and dishwashers without turning off the water supply.

Our fast flow plumbing out drain kit provides an easily installed outlet connection to drain water from a washing machine or dishwasher. No specialist plumbing knowledge is needed and all packaging includes easy to follow instructions.

Gas cooker hoses and fittings are included in this section with an increased range of hoses and the introduction of black iron fittings, which we recommend are installed by a Gas Safe qualified person.

APPLIANCE VALVES

STRAIGHT VALVE

Size	Code	Pack qty	Outer
15mm X 3/4" BSP	PK890	Each	10
15mm X 3/4" BSP	PK890B	Loose	10

SELF CUTTING TAP
