

Polypipe Below Ground Drainage

At Polypipe Building Products, we've continued to invest over the last 40 years, developing new solutions, to help move the construction industry forward with enhanced products and systems - whilst constantly innovating to help you meet the challenges ahead. And that includes our range of below ground drainage fittings.

Over the coming months we will begin including our unique blue ring lock seal in our below ground drainage fittings. This unique seal boasts enhanced performance, giving you the confidence to **fit and forget**.

Features & Benefits:

- No distortion during fitting
- No risk of dislodging and dropping out of the fitting
- Improved rigidity through the new 'stay-shape' ring
- Ensures maximum seal integrity

Top 10 Fittings

Over the coming months, we will begin to include the Polypipe blue ring lock seal in the following products. With a continued roll-out to the rest of our product range throughout 2020.

Underground Drainage 110mm Coupler Double Socket

SKU: UG401 Colour: Terracotta Material: PVC
