

In-Floor Waste Adaptors

NEW

Polypipe In-floor Waste Adaptors are a quick and convenient method of adapting waste and overflow pipes to PVCu, Cast Iron and Clay drainage or soil pipes. The finned external gasket gives a water, air and odour tight seal to the internal bore of the drainage pipe.

The offset seals connect to all types of nominal sized waste pipe

In-Floor Waste Adaptors	Below Ground Code	Above Ground Code	Pack Qty.	Bulk Qty.	
4in/110mm. Adaptor to 21.5mm overflow	UG255	SDC1	1	25	
4in/110mm. Adaptor to 32/40mm waste pipe	UG256	SDC2	1	25	
4in/110mm. Adaptor to 50mm waste pipe	UG257	SDC3	1	25	
4in/110mm. Drain stopper	UG258	SDC4	1	25	

Key Benefits

- Choice of three Adaptors and a Drain Stopper for 4"/100mm and 110mm pipe
- Ideal for floor level connections to PVCu, clay or cast iron nominal 4"/100mm and 110mm drainage or soil pipe
- Seal is to the inside of the pipe, so they can be used even if cut pipe-end is at finished floor level
- Offset adaptor from 21.5mm push fit and solvent weld overflow
