

Polypipe Counter Assistant

Making sure the customer has everything they need.... every time

Welcome to Polypipe

At Polypipe, conceiving, designing, manufacturing and delivering the most advanced products and systems isn't merely an occupation. It's a passion. One that's based around a few simple beliefs. Expertise isn't an option. Quality always beats quantity. Products are nothing without service and support. Sustainability isn't just a 'green' word. And working with our customers is much better than simply supplying them.

Our products

Whether for new-build or refurbishment project we understand the pressures developers and homeowners face in terms of finding the right product solutions to meet their needs and also meet specifications and building regulations. Our knowledge allows us to provide carefully tailored solutions to help you meet all your necessary requirements. Our holistic range is sustainable, energy efficient and cost effective and includes the following product categories:

- Above ground drainage systems for rainwater, soil and waste
- Below ground drainage and flood resilience
- Hot and cold plumbing systems
- Underfloor heating systems
- TDI

Contents
