

POLYPIPE BUILDING PRODUCTS

Quality Engineer

We are currently looking to recruit a Quality Engineer to work within the Quality Assurance department at our Broomhouse Lane site.

Reporting to the Quality Assurance Manager the successful person will have previous working experience of ISO 9001 and be a technical specialist ensuring product legislation compliance.

Key Duties:

- Responsible for quality improvement projects
- Proactive resolution of internal and external quality related issues
- Completing product and process quality audits and reports
- Processing and controlling quality documentation
- Providing product quality data to manufacturing to maintain standards
- Providing occasional back-up for “technical queries” from end-users & builders merchants
- Promoting a ‘right first time’ quality ethos throughout the business highlighting the cost of poor quality
- Working with the customer complaints coordinator to investigate product nonconformities
- Deputising in the absence of the Quality Assurance Manager

Key Experience, Skills / Qualifications

- Graduate level in a plastics or quality related discipline or have appropriate experience in a manufacturing setting.
- Previous experience within a Quality/Engineering role is essential.
- Ability to understand and interpret product drawings, standards, specifications and comply to test procedures.
- Good numerical skills, understanding of statistics and data analysis
- Strong effective decision making, organisational and time management skills along with a wide range of influencing skills and the ability to communicate with internal management and customers.

Hours of work, 40 hours per week, Monday to Friday, 9.00am – 5.30pm
Flexibility regarding working hours & overtime as you will be required to work over your standard hours on occasion.

If you feel, up to the challenge and have the relevant experience and ability we need please email your CV to michael.cooke@polypipe.com
Michael Cooke, Quality Assurance Manager Designate.
Outlining how your experience meets the needs outlined above.

Closing Date for applications: 17th October 2019
